Date of Signature January 3, 2005

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

Pursuant to 37 C.F.R. §§ 1.56, 1.97(b) and 1.98, Applicant brings to the attention of the Examiner the documents listed below and on the attached PTO 1449 form and respectfully requests that the listed documents be considered by the Examiner and made of record in the above-captioned application. These references were recently brought to Applicant's attention in a Supplementary Partial European Search Report, a copy of which is attached hereto. Copies of each of the listed documents are enclosed. The references, listed in reverse chronological order starting with reference number 45 (as 44 references were previously submitted in an Information Disclosure Statement submitted December 11, 2002), are as follows:

- 45) Tugulea et al., 1997, "New Strategies for Early Diagnosis of Heart Allograft Rejection," Transplantation (Williams and Wilkins, Baltimore, MD, US) 64(6):842-847.
- 46) Jutte et al., 1994, "The Development of Transplant Coronary Artery Disease After Cardiac Transplantation is Correlated with a Predominance of CD8+ T Lymphocytes in Endomyocardial Biopsy Derived T Cell Cultures," Clinical and Experimental Immunology 98(1):158-162.
- 47) Panajotopoulos et al., 1992, "A Successful Second Renal Allograft Across Positive B-Cell Crossmatch due to IgG Anti-HLA DR5 Antibody," Clinical Transplantation (Munksgaard, Copenhagen, DK) 6(3I):196-198.
- 48) Taylor et al., 1987, "A Positive B Cell Crossmatch due to IgG Anti-HL:A Antibody Present at the Time of Transplantation in a Successful Renal Allograft," Tissue Antigens 30(3):104-112.

Note that a fifth reference cited in the Supplementary Partial European Search Report, Ten Hoor et al., 1993, "Specificity and Ig Class of Preformed Alloantibodies Causing a Positive Crossmatch in Renal Transplantation," Transplantation 56(2):298-304, was already cited by the Examiner in the Official Action dated May 24, 2002.

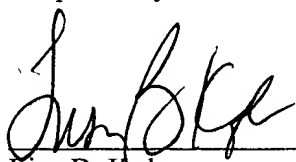

This submission does not constitute an admission that the listed documents are material or constitute "prior art." If the Examiner applies the documents as prior art against any claim in the application and applicant determines that the cited documents do not constitute "prior art" under United States law, applicant reserves the right to present to the Office the relevant facts and law regarding the appropriate status of the documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should the documents be applied against the claims of the present application.

Please charge any fee due with this submission to Deposit Account No. 02-4377.

A copy of this paper is enclosed.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Lisa B. Kole', is written over a horizontal line.
